WVSport Vegan Walking Trainers – Breakdown

Link

✔ Vegan Credentials

- 100% vegan, down to the glue and adhesives
- Certified carbon-neutral production
- Materials include bio-based leather and recycled polyester lining

✔ Labor Ethics

- Made under European labor laws (Portugal/Italy manufacturing)
- Transparent about avoiding sweatshop or slave labor
- Uses a closed-loop production process when possible

✔ Durability & Function

- Designed for hiking or daily city wear
- Water-resistant and breathable
- Designed for long-term comfort with Vibram sole (a big win)
- Weights less than 1lb per shoe

✔ Aesthetics

- While not a 1:1 for COG Wallace (which is more high-top/streetwear), it:
 - Has a sleek, "urban hiking" vibe
 - Looks normal enough for daily wear
 - Comes in darker colorways that feel low-profile

⚖️ Price vs. Quality

- \$107.00 USD (yes, technically just above your \$100 cap)
- But it's functionally waterproof, built for actual wear, and will last years
- Compared to COG's \$163 price and more fashion-forward fragility, this is a solid deal
